Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), effective Nov. 1, 1984. If the maintenance fee is not paid in a patent requiring such payment, the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on July 27, 1982 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

IMPROVEMENTS TO SERVICE

- *Goals for Faster Service* — One of our special service objectives for this year was to commit to goals for faster service. As you will note on the report above, seven goals have been reduced. We will continue to look for ways to expedite services, as well as improve quality.
- *Increased Accessibility of U.S. Patent File* — U.S patent film has been moved from the Assignment Search Room area to the Patent Public Search Room — north stack area. Whereas this film previously was not accessible to the public after 4:45 p.m., it now can be used until 8:00 p.m.
- *Extended Hours for Availability of File Histories* — The File Information Unit extended the hours that files can be made available to requesters from 5:00 p.m. to 7:30 p.m. Past policy required that no files would be issued after 5:00 p.m. due to staffing limitations. To resolve that situation and provide improved service, functions normally performed from 5:00 p.m. until 8:00 p.m. have been deferred to the following morning.
- *New Photocopiers* — All public-use copiers were replaced by new machines.
- *Improvements in Security* — In response to recommendations made by the Department of Commerce Inspector General's Office and in our recognition of opportunities to improve security within the PTO, we are taking further actions to tighten security. Recently, we revised our procedures to preclude removal of any files from the Public Search Room by the public. Also, a roving guard now circulates throughout Crystal Plaza Buildings 3

and 4, as well as the Public Search Room, to enhance protection of people, files, and government property and to ensure that all individuals have a valid building pass displayed. Guards will also be periodically inspecting briefcases, bags, etc. of members of the public and PTO employees to ensure files or government property are not being taken from the authorized premises. The PTO is continuing to pursue additional ways to reduce vulnerabilities regarding security.

HELPFUL HINTS

- *Petitions to Revive Abandoned Applications* — Frequently, a petition to revive an abandoned application is accompanied by an unnecessary request and fee for extension of time. Our policy is set forth in MPEP 711.03(c). Specifically, a response does not require a request and fee for extension of time as a condition of revival.
  Further, a petition to revive an abandoned application is often accompanied by an unnecessary terminal disclaimer. A terminal disclaimer is required only when a grantable petition based on unavoidable delay is not filed within six months of the date of abandonment; cf. 37 CFR 1.137(a) and 1.137(c). A terminal disclaimer should not accompany a petition based on unintentional abandonment; i.e., 37 CFR 1.137(b). In these respects, the reasoning is analogous to petitions to accept late payment of the issue fee under 37 CFR 1.155 or 1.316.
  Finally, when a terminal disclaimer is a necessary component of the petition, the period to be disclaimed must equal the number of months between the date of abandonment and the date a grantable petition is filed. The date of abandonment is the date the period for response has expired; see MPEP 711.04(a). This is normally the end of the three month shortened statutory period. Moreover, the terminal disclaimer should employ the following format:

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
